

Metadata for HBRG taxon datasets at 31 January 2011

Dataset name: Fungi & Lichens **Dataset key:** 0 **Total records:** 6329
On R6? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Algae **Dataset key:** 5 **Total records:** 166
On R6? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Bryophytes & Stoneworts **Dataset key:** 10 **Total records:** 584
On R6? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Vascular plants **Dataset key:** 15 **Total records:** 6385
On R6? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**

All records passed to BSBI recorders.

Dataset name: Annelida and Mollusca **Dataset key:** 20 **Total records:** 2261
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Dataset name: Miscellaneous arthropods **Dataset key:** 25 **Total records:** 508
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Includes all arthropods not in other datasets. Class or Order should be included at the end of the Comment field to assist future management.

Dataset name: Arachnids **Dataset key:** 30 **Total records:** 1469
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Dataset name: Odonata **Dataset key:** 35 **Total records:** 2524
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Includes IMAG data, but Literature records extracted from Hammond (1983) and Collier (1981) without details and at 10km resolution have been omitted.

Dataset name: Odonata BDS **Dataset key:** 40 **Total records:** 11925
On R6? No **On NBN Gateway?** No **in** N/A **at** N/A **resolution**

Highland records held by BDS in September 2007. BDS will administer the complete dataset on NBN. Some old field records have been assigned to modern determiners by BDS.

Dataset name: Hemiptera **Dataset key:** 45 **Total records:** 8281
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Lepidoptera **Dataset key:** 50 **Total records:** 56211
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at Full resolution**
VC95 records checked by Mike Taylor, Feb 2008, and some records originally in this dataset moved to Unverified.

Dataset name: Diptera **Dataset key:** 55 **Total records:** 7645
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at Full resolution**

Dataset name: Hymenoptera **Dataset key:** 60 **Total records:** 15313
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at Full resolution**
Polistes jadwigae (an accidental import) is not in R6.

Dataset name: Coleoptera **Dataset key:** 65 **Total records:** 6062
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at Full resolution**

Dataset name: Other Insects **Dataset key:** 69 **Total records:** 1301
On R6? Yes **On NBN Gateway?** Yes **in** Insects **at Full resolution**
All insects not included in specific order datasets. Order should be included at the end of the Comment field to assist future management.

Dataset name: Miscellaneous invertebrates **Dataset key:** 70 **Total records:** 76
On R6? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at Full resolution**
Any invertebrate records not included in other datasets. Phylum or other high taxon should be included at the end of the Comment field to assist future management.

Dataset name: Fish & Herptiles **Dataset key:** 75 **Total records:** 3907
On R6? Yes **On NBN Gateway?** Yes **in** Vertebrates (not Badger) **at Full resolution**
Some confidential Triturus cristatus records are not on NBN.

Dataset name: Birds **Dataset key:** 80 **Total records:** 4013
On R6? Yes **On NBN Gateway?** No **in** N/A **at N/A resolution**
All records passed to Highland bird recorders.

Dataset name: Mammals (not Badgers) **Dataset key:** 85 **Total records:** 22348
On R6? Yes **On NBN Gateway?** Yes **in** Vertebrates (not Badger) **at Full resolution**

Dataset name: Badgers **Dataset key:** 90 **Total records:** 1527
On R6? Yes **On NBN Gateway?** Yes **in** Badger **at 10km resolution**
Records given by Roger Cottis are flagged as confidential are not on NBN. Care should be taken not to release high resolution NGRs of setts except to appropriate enquirers.

Dataset name: Taxa not valid in R2002 **Dataset key:** 100 **Total records:** 0
On R6? No **On NBN Gateway?**No **in** N/A **at** N/A **resolution**
See other dataset descriptions for taxa that have been included though not valid in R6.

Dataset name: Unverified **Dataset key:** 200 **Total records:** 61
On R6? No **On NBN Gateway?**No **in** N/A **at** N/A **resolution**
Unverified records, not to be disseminated until verified.

Dataset name: Duplicates **Dataset key:** 300 **Total records:** 15
On R6? No **On NBN Gateway?**No **in** **at** N/A **resolution**
Any duplicate records. The later of the duplicates will be placed here.

Total records in database **158911**
