

Metadata for HBRG taxon datasets at 13 March 2008

Dataset name: Fungi & Lichens **Dataset key:** 0 **Total records:** 1001
On R2002? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**
Paurocotylis pilus is not valid in R2002 and so not on NBN.

Dataset name: Algae **Dataset key:** 5 **Total records:** 85
On R2002? No **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
Trentepohlia, the only genus represented here, is not listed by R2002.

Dataset name: Bryophytes & Stoneworts **Dataset key:** 10 **Total records:** 7
On R2002? Yes **On NBN Gateway?** Yes **in** Fungi, Lichens & Lower plants **at** Full **resolution**

Dataset name: Vascular plants **Dataset key:** 15 **Total records:** 5146
On R2002? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
All records passed to BSBI recorders.

Dataset name: Annelida and Mollusca **Dataset key:** 20 **Total records:** 104
On R2002? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Dataset name: Miscellaneous arthropods **Dataset key:** 25 **Total records:** 253
On R2002? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**
Includes all arthropods not in other datasets. Class or Order should be included at the end of the Comment field to assist future management.

Dataset name: Arachnids **Dataset key:** 30 **Total records:** 833
On R2002? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**

Dataset name: Odonata **Dataset key:** 35 **Total records:** 1354
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**
Includes IMAG data, but Literature records extracted from Hammond (1983) and Collier (1981) without details and at 10km resolution have been omitted.

Dataset name: Odonata BDS **Dataset key:** 40 **Total records:** 11925
On R2002? No **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
Highland records held by BDS in September 2007. BDS will administer the complete dataset on NBN. Some old field records have been assigned to modern determiners by BDS.

Dataset name: Hemiptera **Dataset key:** 45 **Total records:** 5907
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Lepidoptera **Dataset key:** 50 **Total records:** 42905
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**
VC95 records checked by Mike Taylor, Feb 2008, and some records originally in this dataset moved to Unverified.

Dataset name: Diptera **Dataset key:** 55 **Total records:** 5637
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Hymenoptera **Dataset key:** 60 **Total records:** 11890
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**
Lasius niger/platythorax invalid in R2002 - stored there as L. niger [s.l.]. Bombus cryptarum invalid in R2002 - stored there as B. lucorum [s.l.]. See notes in Comments. B. hypnorum (invalid) and Polistes jadwigae (adventive) not in R2002.

Dataset name: Coleoptera **Dataset key:** 65 **Total records:** 5111
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**

Dataset name: Other Insects **Dataset key:** 69 **Total records:** 889
On R2002? Yes **On NBN Gateway?** Yes **in** Insects **at** Full **resolution**
All insects not included in specific order datasets. Order should be included at the end of the Comment field to assist future management.

Dataset name: Miscellaneous invertebrates **Dataset key:** 70 **Total records:** 2
On R2002? Yes **On NBN Gateway?** Yes **in** Other invertebrates **at** Full **resolution**
Any invertebrate records not included in other datasets. Phylum or other high taxon should be included at the end of the Comment field to assist future management.

Dataset name: Fish & Herptiles **Dataset key:** 75 **Total records:** 2833
On R2002? Yes **On NBN Gateway?** Yes **in** Vertebrates (not Badger) **at** Full **resolution**
Some confidential Triturus cristatus records are not on NBN.

Dataset name: Birds **Dataset key:** 80 **Total records:** 1920
On R2002? Yes **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
All records passed to Highland bird recorders.

Dataset name: Mammals (not Badgers) **Dataset key:** 85 **Total records:** 17585
On R2002? Yes **On NBN Gateway?** Yes **in** Vertebrates (not Badger) **at** Full **resolution**

Dataset name: Badgers **Dataset key:** 90 **Total records:** 1098
On R2002? Yes **On NBN Gateway?** Yes **in** Badger **at** 10km **resolution**
Records given by Roger Cottis are flagged as confidential are not on NBN. Care should be taken not to release high resolution NGRs of setts except to appropriate enquirers.

Dataset name: Unverified **Dataset key:** 200 **Total records:** 36
On R2002? No **On NBN Gateway?** No **in** N/A **at** N/A **resolution**
Unverified records, not to be disseminated until verified.

Total records in database **116521**
